

Roarrace

A project which idealises capitalism, Wherein money can be made and (adult) toddlers play an important role by screaming themselves to victory.

An artwork as a metaphor for progression in our western society ;)

2017

Roarrace

“Tricycles” and little red’s riding wolves.

“For Toddlers” en “For Adult Toddlers”

The tricycles reacts on sound, so the louder the (adult) toddlers can scream, the faster the tricycles will go. On this way we are organising races. The crowd will be able to place a bet on their favorite at the bookies available on the track.

Events: From pop and theater festivals to art events and the opening of your new bank office ;-)

Language: Dutch, English.

Duration;

- one act: 25 minutes
- entire act: 5 hours (including breaks).
- Build up: 1.5 hours
- Dismantle: 1 hour

Maximum number of spectators: +/- 1000

Minimum number of spectators: +/- 250

Backstage

Storage:

The festival is responsible for a lockable storage of 3x2.5 meters (only for multi-day festivals or festivals more than 150km from Zutphen NL).

Parking:

The festival is responsible for a save parking space at a place as close as possible to the track. (Car with trailer)

Accommodation

The festival is responsible for, and offers the possibility of accommodation, in a hotel as close to the festival as possible. (Only for multi-day festivals or festivals more than 150km from Zutphen NL).

Dressing room:

The festival is responsible for the changing room for 3 actors.

Office and Internet

We like to make short films form al the performances we make during the day, and put them online at the end of the day. So if you can offer us an office space with a good Internet connection, we would appreciate that.

Catering:

The festival is responsible for Breakfast, (for multi-day festivals) lunch, dinner, drinks (no junk food)

Number of members: 5

Conditions!

Roarrace

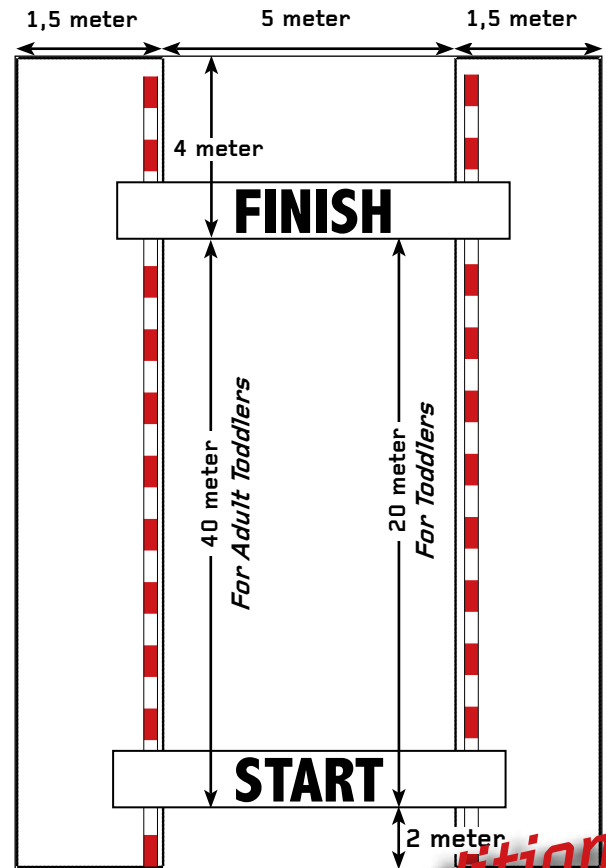

Location: *The best location for the show is in the middle of crowded places where the public can easily get on both side of the trail. The main route at a festival or a busy shopping area are the ideal places for us.*

Surface: *The surface should be as flat as possible without annoying holes where the drivers or actors can hurt themselves and the Tricycles can be damaged. We prefer a paved surface. Rain should not be a problem as long as the track is not slippery. It's able to have races on the grass as long as the Tricycles will not sink into the grass, and leave marks behind.*

Electricity: *We need one power point at the start from 220v-16 A.*

Sound: *We take our own sound equipment with us.*

The ideal dimensions of the race course:

Roarrace

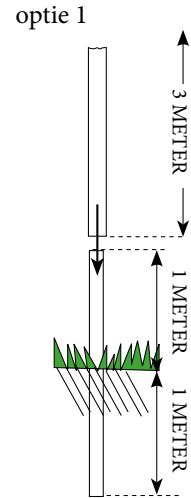

Location

Start/Finish There are a view ways to put down the 3 meter high Start and Finish- posts.

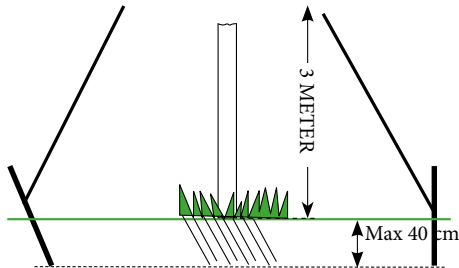

Option 1: We can put 2-meter high poles 1 meter in to the ground; we can push the start and finish-posts over it.

Option 2: We can brace the posts with a peg that goes 40 cm in to the ground, or we can tie it on lampposts and other objects in the street if that is not possible

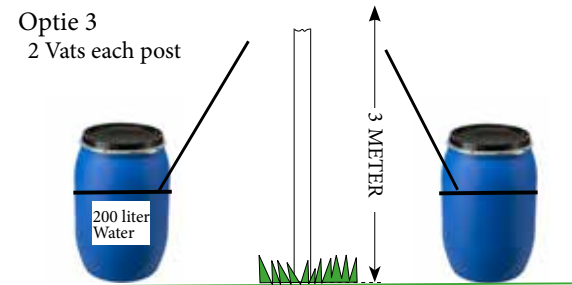

Option 3 Then there is a possibility to Brace the posts onto vats filled with water. Please deliberate this option with us. (The vats and the filling of the vats are the responsibility of the festival.)

Optie 2

Optie 3
2 Vats each post
